DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 4, 5, 7, 8 and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Roberts.

There is disclosed in Roberts a beverage dispenser, comprising: a housing including a body 13 and an overhanging portion 13', the overhanging portion extending from the body and defining a dispensing area; plural servers 12 being positionable in the dispensing area; an extension 107 protruding from the body into the dispensing area and proximate to the server, there being defined a void between the extension and the overhanging portion.

Allowable Subject Matter

Claims 3, 6 and 9-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Webster et al and Warne are cited for their disclosure of the state of the art.
